Automobile Star

RETURN TO DESIGN DIV.

No. 5071
Automobile Star.

THE above is an illustration of our bronze COURTESY STAR, which has met with a great deal of popularity. City officials while in their own townships are no doubt acquainted with the officers who are there to enforce the law on parking limits, but when in another city they probably find themselves, in many cases, subject to inquiries and explanations.

The COURTESY STAR promptly identifies them.

COURTESY STARS are made of solid bronze, letters in black enamel on a highly nickel plated panel, and are adaptable to any make of car. Bolts are furnished with each pair.

Per Pair \$10.00
